

Doug Croft

Doug was born and raised in Virginia and studied Finance and Horticulture at Virginia Tech. He interned in Horticulture at the Morris Arboretum and worked at Haverford College Arboretum for three years before joining Chanticleer as a Horticulturist from 2000 to

2018. During his time at Chanticleer, he managed the Cutting and Vegetable Gardens, the Rock Wall, and Long Border, and he created ceramic vases that could be used to display floral arrangements in the garden.

Doug was pleased to find a way to utilize his interest in clay to create functional vessels and add to the artistry found throughout the garden.

Doug currently gardens in Virginia working on a private estate.
