

Geoff McAfee

Geoff hails from Belfast, Northern Ireland, moved to the, United States 33 years ago, and in 1998 began his own painting business specializing in restoring old homes. Geoff has been a painting contractor for Chanticleer for 16 years. As part of his work with Chanticleer, he has assisted staff in the final steps of finish work on furniture and objects made for the garden. Each winter, Geoff is part of the team that assesses each piece for sound design and aesthetic repair. After the repairs are made, Geoff stains, seals, or paints each item. Over the years he has experimented with different products to protect wood from the elements and to ensure they are functional, safe, and attractive. Geoff likes the challenge of working with decades-old pieces that are well-used outside and bringing them back to their full potential as well as working with the various creatives at Chanticleer and helping bring their new ideas to life.
