

# Laurel Voran

**Laurel began in 1999 as a Horticulturist at Chanticleer. Laurel studied Natural Sciences and Fine Art at Goshen College, with an emphasis on graphic design and printmaking. Laurel then completed the two-year Longwood Gardens Professional Horticulture Program followed by a six-month internship working in English gardens. At Chanticleer, she created and managed the Gravel and Ruin Gardens. Laurel put her drawing skills to work by painting the interior of the Apple House at Chanticleer, carving the Minder Woods Plant List Box, and helping construct the Gravel Garden Plant List Box in this show. Laurel currently works on public and private gardens in Michigan.**
